

# SSCD Guide to Celiac Sessions at DDW® 2019

May 18-21, 2019

San Diego, CA

**All sessions will be held in the San Diego Convention Center unless otherwise stated**

Time of Day / Date	Sunday May 19, 2019	Monday May 20, 2019	Tuesday May 21, 2019
<p><b>Morning Sessions</b> 7:00 am – 11:59 am</p>		<p><b>10:00AM – 11:30AM – RM 31A</b></p> <p><b>CELIAC DISEASE AND RELATED DISORDERS</b></p> <p><b>10:00am – 10:15am</b> *Utility of Symptom Severity, Frequency, and Liability in Predicting Serology Status and Villous Injury in the Symptomatic Adults with Treated Celiac Disease</p> <p><b>10:15am – 10:30am</b> *Real Life Patterns of Gluten-Free Diet Adherence in Celiac Patients Using GIP Excretion</p> <p><b>10:30am – 10:45am</b> *A Theory-Based, Behaviorally Focused Cooking Intervention for Adults with Celiac Disease Increased Gluten-Free Diet Adherence and Quality of Life</p> <p><b>10:45am – 11:00am</b> *Identification of Immunotoxic peptides from Dietary Wheat in Human Urine -</p> <p><b>11:00am – 11:15am</b> *Effect of Bifidobacterium Infantis NSL Super Strain in High Symptomatic Celiac Disease Patients on Long-Term Gluten-Free Diet. A Pilot Study</p>	<p><b>8:00AM – 9:30AM – RM 20A</b></p> <p><b>CELIAC AND GLUTEN RELATED DISORDERS</b></p> <p><b>8:00am – 8:12am</b> *Metabolism of Wheat Amylase Trypsin Inhibitors by Lactobacilli Ameliorates Gut Dysfunction Induced by Wheat Proteins</p> <p><b>8:12am – 8:24am</b> *Prospective Longitudinal Gut Metagenomic Analysis Suggests Altered Microbiome Composition and Function in Infants Prior to Celiac Disease Onset</p> <p><b>8:24am – 8:36am</b> *A Randomized, Placebo-Controlled Evaluation of the Clinical Tolerability, Pharmacodynamic (PD) &amp; Pharmacokinetic (PK) Profiles of Subcutaneous (SC) Versus Intradermal (ID) Dosing of NEXVAX2, a Peptide Treatment for Celiac Disease (CED)</p> <p><b>8:36am – 8:48am</b> *Further Development of a Novel In Vivo Model for Celiac Disease in Mice with a Humanized Immune System</p>

Time of Day / Date	Sunday May 19, 2019	Monday May 20, 2019	Tuesday May 21, 2019
		<p><b>11:15am – 11:30am</b>            *Concordance of Bulb and Distal Duodenal Findings in Celiac Disease            Follow Up Biopsies: Limited Clinical Relevance of Bulb Only Persistent Mucosal Injury</p>	<p><b>8:48am – 9:00am</b>            *Benefits and Barriers of a Handheld Consumer Gluten Detector Among Adults and Teenagers with Celiac Disease: A Randomized Clinical Trial</p> <p><b>9:00am – 9:12am</b>            *Acute Gluten-Induced Symptoms in Celiac Disease (CED) are Quantitatively Correlated with Serum Cytokine Response</p> <p><b>9:12am – 9:24am</b>            *An Acute Rise in Serum IL-2 Levels but not Symptoms Differentiates Celiac Disease Subjects from Non-Celiac Gluten Sensitivity and Healthy Subjects in a Single Dose Randomized Double Blind Placebo Controlled Gluten Challenge</p> <p><b>10:00AM – 11:30AM – RM 24ABC</b></p> <p><b>NONCELIAC WHEAT (GLUTEN) SENSITIVITY</b></p> <p><b>10:22am – 10:44am</b>            * Gluten: A Villain Beyond Celiac Disease</p> <p><b>11:06am – 11:18am</b>            *Gluten Avoidance and Self-Reported Non-Celiac Wheat Sensitivity: Incidence and Prevalence from a Longitudinal Cohort Study of 1322 Individuals</p>

Time of Day / Date	Sunday May 19, 2019	Monday May 20, 2019	Tuesday May 21, 2019
<p style="text-align: center;"><b>Afternoon Sessions</b> 12:00 noon – 5:00pm</p>	<p>12:30 pm – 1:45 pm / Rm 29CD Celiac Disease and Non-Celiac Wheat/Gluten Sensitivity (Ticketed Session)</p>	<p>2:00PM – 3:30PM – RM 25ABC</p> <p><b>CLINICAL CONTROVERSY: SCREENING FOR MINIMALLY OR NONSYMPTOMATIC PERSONS FOR CELIAC DISEASE</b></p> <p><b>2:00pm – 2:25pm</b> *The Case Against Screening for Celiac Disease</p> <p><b>2:25pm – 2:50pm</b> *The Benefits of Screening Celiac Disease</p> <p><b>3:00pm – 3:15pm</b> *Economic Burden of Celiac Disease in the U.S.</p> <p><b>3:15pm – 3:30pm</b> *Prevalence of Celiac Disease Autoimmunity and Associated Morbid Conditions in First-degree Relatives of Patients with Celiac Disease</p> <p><b>4:00PM – 5:30PM - RM 26AB</b> AGA's Lo Mejor de DDW <i>Dirigido por Edgardo Smecuol y Eduardo Gutierrez Galiana</i></p> <p><b>4:18pm – 4:36pm</b> *Celiac Disease and Other Disorders Related to Gluten</p>	

Time of Day / Date	Sunday May 19, 2019	Monday May 20, 2019	Tuesday May 21, 2019
<p><b>Evening Sessions 5:00pm – 9:00pm</b></p>		<p><b>5:40PM – 6:15PM</b> San Diego Marriott Marquis – Torrey Pines meeting room <b>AGA BCID meeting</b></p> <p><b>6:15PM – 7:15PM</b> San Diego Marriott Marquis – Torrey Pines meeting room <b>SSCD Annual Business Meeting</b></p> <p><b>7:15PM – 8:30PM</b> San Diego Marriott Marquis – Torrey Pines meeting room <b>Celiac Disease Foundation wine and cheese Reception for SSCD</b></p>	

## **Poster / e-Poster Sessions and Papers**

Halls C – E 12:00 noon – 2:00 pm (All Days)

### **Saturday - May 18, 2019**

Celiac Disease Associated Liver Dysfunction: Study of the Histological Features and Co-localisation Patterns of IGA in IGG Anti-tissue Transglutaminase Antibody in Liver Biopsies

Cross Presentation of Microbial Transglutaminase by Enterocytes in Celiac Disease

### **Sunday - May 19, 2019**

Role of the Novel Introduced Pan-Intestinal Capsule Endoscopy System in Celiac Disease

The Prevalence of HLA-DQ Genes, Celiac Serologies, IGA Levels, and Serum CRP Levels in Patients with Microscopic Colitis

### **Monday - May 20, 2019**

Acute Pancreatitis with Celiac Disease: Has the Inpatient Prevalence Changed and is it Associated with Worse Outcomes?

Adherence to the Gluten-Free Diet and Celiac Disease Patient Outcomes: Real World Evidences from an International Patient Registry, ICURECELIAC

An Educational APP to Support the Gluten-Free Diet in Patients with Celiac Disease

Assessing Severity and Healthcare Resource Utilization in Celiac Disease: A U.S. Claims Data Analysis

Assessment of Novel Candidate Biomarkers of Celiac Disease Activity

Assessment of Parental Gluten-Free Diet Knowledge in a Multi-Disciplinary Celiac Disease Clinic

Association Between Prenatal Antibiotics Exposure and the Risk of Celiac Disease: A Systematic Review and Meta-Analysis

Celiac Disease: Enhancing Educational Support for Gastroenterology Providers in the Adult Celiac Population

Co-localisation of IGA and IGG Anti-Tissue Transglutaminase 2 Antibodies is a Reliable Method of Diagnosing Extra-intestinal Celiac Disease

Comparison of Celiac Disease Patient Satisfaction Between a Multidisciplinary Celiac Disease Center Versus a General Gastroenterology Clinic

Contribution of the Intestinal Epithelium in Modulating Macrophage Response to PT-Gliadin in Celiac Disease

Celiac Disease Pathophysiology

Celiac Disease: Diagnosis and Management

Celiac Disease: Population Science

Epidemiology of Patients Admitted for Celiac Disease

Healthcare Utilization and Comorbidities Among People with Refractory and Non-Responsive Celiac Disease: Findings from 4 Large US Administrative Claims Databases

How are Celiac Disease Patients Followed Up? Results from a Multicenter Cross-sectional Study from Argentina

Incidence of Celiac Disease is Increasing Over Time: A Systematic Review and Meta-analysis

Investigating the Role of Integrins in Celiac Disease by Mass Cytometry

Is the Increase in Celiac Disease Incidence Due to a Birth Cohort or Time Period Effect? A Population Based Study

Latiglutenase Improves Quality of Life in Seropositive Celiac Disease Patients

Minimally-invasive Monitoring of Intestinal Villous Health in Recovering Celiac Disease Patients

Prevalence of Celiac Disease (CD) in Subjects with Dyspeptic Symptoms. A Case-control Study

Responder Analysis for Latiglutenase Reduction in Symptoms for Celiac Disease Patients

Symptom Profiles, Gluten Free Diet Adherence, and Laboratory Data Do Not Reliably Predict Duodenal Mucosal Healing in Follow Up Biopsies from Patients in Celiac Disease in a Multinational Pathology Based Cohort

The Positive and Negative Ripple-effect of Celiac Disease Diagnosis and Management on the Family: A Mixed Methods Approach

The Utility of IGA Based Serologic Markers in Diagnosing Celiac Disease in Children  $\leq$  24 Months of Age

Use of Cladribine for Ulcerative Jejunitis in Celiac Disease: A Single-center Experience in North America

## **Tuesday - May 21, 2019**

Factors Associated with Degree of Duodenal Inflammation in Children with Newly-Diagnosed Celiac Disease
